Date de naissance:14/06/2001

MY PROJECTS

Recruitment management web application:

-Created a user-friendly interface for the system using React, which allows easy navigation for companies and job seekers.

-Implemented an automated CV filtering algorithm using Node.js and MongoDB that matches specific job keywords with the candidate's profile and experience

automation of chat bot creation:

- Developed a custom payment API using Node.js to allow users to securely make payments directly from the chatbot app.

-Worked on the development of the front-end of the application using AngularJS to create a responsive and intuitive user interface.

EXPERIENCE

Web developer

shamash | 2022-2023 December 15 - February 20
